

		If elected to office, would you support (S) or oppose (O) legislation to allow the following:				
Electorate	Candidate	Embryonic stem cell research, which necessitates the destruction of human embryos?	Human Cloning, which is also called somatic cell nuclear transfer (SCNT)?	Euthanasia?	Restrictions on the availability of abortion?	Others Comments
Albert	Jonathan Eaton Family First	O	O	O	S "Many more restrictions or no abortions at all."	"Keep up the good work!"
Burleigh	Christine Smith ALP					"A QRTL member spoke to Christine Smith's secretary - the secretary assured our member that Christine was against abortion, euthanasia, embryonic stem cell research and cloning."
Burleigh	Mike Beale Greens					"A QRTL member spoke to Mike Beale and he stated he has no opinion on all four (questions)."
Burleigh	Michael Hart Liberal					"A QRTL member spoke to Michale Hart. He stated he is pro-life and a family person but has no opinion on all four (questions)."
Capalaba	Michael Choi ALP	"I voted against embryonic stem cell research and would vote against it again."	"Absolutely against it."	"I do not support euthanasia."	"I do not support RU-486. In principle, I am against abortion but I understand if it is the result of incest or to a lesser extent, rape."	QRTL direct person-to-person telephone call responses with Michael Choi.
Capalaba	Trish Symons Liberal	O	O	O	S	
Capalaba	Anna Bligh Labor	Letter received by QRTL gave no definitive answer	Letter received by QRTL gave no definitive answer	As per Labor's form letter - "There are no proposed changes to the current legislation for euthanasia and abortion".	As per Labor's form letter - "There are no proposed changes to the current legislation for euthanasia and abortion".	
Gregory	Vaughan Johnson National	O "This is no different to abortion, a sickening issue to think intelligent people could experiment with the human body this way - a definite no from me."	O "Again, a sickening experiment on human tissues. The Nazis were condemned for experiments with humans during the 2nd World War. Now we have sick minded people who want to condone it."	O "This is blantant first degree professional murder."	S "Totally oppose (abortion) in every way, again human life is sacred and must be preserved at any cost. A life is a life."	
Ipswich	Rachel Nolan (Emily's List) ALP					"...I do not respond specifically to these questionnaires." "My record of speaking and voting on the matter you raise is readily available on the public record."
Keppel	Mary Carroll National	O "I do not oppose adult stem cell research but absolutely oppose human embryonic research."	O	O	S	
Logan	Dr Belinda Goodwin National	O "Totally oppose."	O "Totally oppose."	O "Totally oppose."		"Current legislation requires further enforcing. Abortion should be illegal in all instances. I would support government initiatives to show the positive nature of pregnancy and traditional families."
Logan	Robert Prinzen-Wood Family First	O "Family First is against embryonic stem cell research because it involves the killing of innocent unborn babies."	O	O "I would seek a total ban on all forms of euthanasia."	S "I would seek to change the law so that clear restrictions would be placed on abortion, even from conception."	
Mackay	Tim Mulherin Labor	Letter received by QRTL gave no definitive answer	Letter received by QRTL gave no definitive answer	As per Labor's form letter - "There are no proposed changes to the current legislation for euthanasia and abortion".	As per Labor's form letter - "There are no proposed changes to the current legislation for euthanasia and abortion".	
Maroochydore	Fiona Simpson National	O	O	O	S	
Maryborough	Chris Foley Independent	O	O	O	S	
Mount Gravatt	Matthew Darragh Family First	O	O	O	S	
Mount Gravatt	Nick Monsour Liberals	"I oppose embryonic stem cell research and would not support anything that harms or threatens life."	"I oppose cloning."	"I oppose euthanasia."	"I am opposed to abortion - it goes against my fundamental beliefs."	QRTL direct person-to-person telephone call responses with Nick Monsour.
Nanango	Dorothy Pratt Independent	O	O	"Oppose mostly because of the 'human' element so easily corrupted."	"Agree with current law and see no need for change."	
Noosa	John O'Connor Labor	Letter received by QRTL gave no definitive answer	Letter received by QRTL gave no definitive answer	As per Labor's form letter - "There are no proposed changes to the current legislation for euthanasia and abortion".	As per Labor's form letter - "There are no proposed changes to the current legislation for euthanasia and abortion".	
South Brisbane	Lynne Jennings Liberal	O "I do not support the destruction of human embryos"	O "I do not support the cloning of humans. I certainly wouldn't want another me."	O "This is a very touchy subject"	S "I believe in the right to life"	
Southern Downs	Lawrence Springborg Liberals	Mr Springborg wrote that the Qld Coalition supports existing legislation in relation to stem cell research and has no policy to change any of its provisions."				"The Qld Coalition supports the existing Qld Criminal Code in relation to abortion and euthanasia."
Tablelands	Denis McKinley ALP	O "Nature should not be modified in any way."	O "Nature should not be interferred with."	O "Life should be allowed to take its own course."	S "Once conceived, it becomes a person and has a right to life"	
Tablelands	George Adil Nationals					"I do not have any firm views on the questions you have posed but I am influenced by sound scientific knowledge and advice tempered by strong moral convictions and the sanctity of life."
Toowoomba North	Kerry Shine ALP	O	O	O	"I totally oppose abortion and do not support any change to the current Queensland Law"	
Toowoomba North	Lyle Shelton Nationals	O	O	O	S	
Toowoomba North	Archie Franz Family First	O "They use live embryos, which are living babies. This is taking a life of an innocent person who has no protection. I and my party are totally against this harvesting and abuse of innocent lives. I and my party, believe it is the government's job to defend all human life and liberty."	O "Again, we should not be interfering with a person's life who cannot defend themselves. The collection and fertilisation of embryos leads to a living person, who should not be in the hands of doctors or scientists, but should only be in the womb of a woman. We must protect the innocent, no matter how much they think it could benefit society"	O "This is against our belief in the sanctity of life. I and my party will never agree to a person taking their life or being helped to take their life."	S "Abortion is the killing of an innocent life. I and my party are anti-abortion. We must protect the innocent. Strange how we make it legal to kill a child in the womb of a woman but it is criminal to kill a child outside the womb. The most dangerous place to be now days is in the womb."	
Toowoomba South	Peter Hicks Family First	O	O	O	S
